Ultra-slim 93 mm Profile
Blends seamlessly into home bathrooms, and allows commodes to fit over the seat when required.

Commode Mode
Allows wash functions to be used without activating the seat's user detection sensor, ensuring all users can experience the same features and benefits.

Intuitive Handset Control
Easily personalise spray position and pressure, along with water, seat, and dryer temperatures.

Integrated Control Knob
Provides direct access to key functions from the unit itself, offering a simple alternative to the handset when preferred.

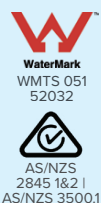

User Detection Sensor
Intelligent seat sensor prevents accidental activation by detecting when a user is seated.

Soft-close Seat & Lid
Premium soft-close hinges ensure the seat and lid close gently and quietly every time.

Simple to Install and Maintain

Built-in Backflow Prevention Device
Protects the home's clean water supply, significantly reducing setup and ongoing maintenance costs.

Remote Control Mount
The support for the remote control can be mounted to the wall with adhesive or screws.
